

THE DO'S AND DON'TS IN THE MARINA

DO place all rubbish in the Rubbish Bins near the Marina entrance and keep walkways clear at all times.

DO regularly inspect your vessel once a week or have another member do this for you.

DO report to the Office any irregularities in your opinion concerning the marina for prompt investigation and corrective action.

DO report any maintenance required.
(Pen occupiers are responsible for their Pen lines.)

DO enjoy the convenience of your marina facilities and take an interest in the upkeep of the general security of the whole area.

DON'T change or remove any of the standard fixtures of your pen.

DON'T leave your stern pen lines trailing in the water to foul passing propellers - please hang them up on your pen.

DON'T leave power connected while your vessel is unattended other than for low voltage battery charging.

DON'T allow another vessel to use your pen without permission of the Waterfront Manager - we have many visitors from other clubs using our facilities and we must maintain control in the interests of your vessel's security.

DON'T lend your club key.
